

HEAVYWEIGHT & DRUM LINERS

Made from a blend of Low and Linear Low-Density Polyethylene. Our liners come stocked in 32 sizes ranging from 7–60 gallon capacity. All liners are engineered to provide over three times the impact and twice the tensile strength of traditional low-density polyethylene bags. Designed for heavy loads and puncture resistance, these heavyweight bags can be used to dispose of construction debris, broken glass, lawn trimmings and other refuse with sharp corners and edges.

PRODUCT FEATURES

- ▶ 1.5–6 mil polyethylene
- ▶ Three times the impact and twice the tensile strength of traditional low-density polyethylene bags
- ▶ Black and clear bags available in each size

HEAVYWEIGHT LINEAR LOW-DENSITY LINERS

LLD STOCK LINERS – GUSSETED

ITEM	W x D x L	MIL	COLOR	CNT	WT
